SUMMARY.

College Course—		
Senior Class	2	
Junior Class	8	
Sophomore Class	3	
Freshman Class	8	21
Preparatory Course—		
Senior Class	11	
Middle Class	19	
Junior Class	26	
Special	2	58
Normal Course—		
Senior Class	13	
Senior Middle Class	19	
Junior Middle Class	13	
Junior Normal Class	43	88
Grammar School Course—		
First Grade	58	
Second Grade	69	
Third Grade	52	
Fourth Grade	56	
Fifth Grade	50	285
Model School—		
Sixth Grade	23	
Seventh Grade	13	
Eighth Grade	16	52
Whole number of students		504
Boys	197	
Girls	307	
Boarders	182	
Day Pupils	322	
Number of Counties in Georgia represented		44
Number of States represented		8

COURSES OF STUDY.

The following courses of study are now established, and others will be added as may be required.

COLLEGE COURSE.

For admission to this course, pupils must pass a thorough examination in the common English branches, and also in the studies of the Preparatory Course, or their equivalent. The degree of A. B. will be given to those who graduate from this course.

Freshman Class.

Greek — Grammar, (Goodwin); Greek Reader, (Moss); Xenophon's Anabasis, (Kelsey).

Latin — Cicero, De Senectute, (Allen); De Amicitia, (Kelsey); Livy, (Chase & Stuart); Latin Prose, (Jones).

Mathematics — Algebra, (Wentworth's College).

Sophomore Class.

Greek — Xenophon's Anabasis, continued, (Kelsey); Xenophon's Memorabilia (Winans); Homer's Odyssey, (Merriam).

Latin — Tacitus, (Greenough); Horace, (Chase & Stuart); Tusculan Disputations, (Chase & Stuart).

Mathematics — Solid and Spherical Geometry, (Wentworth); Trigonometry and Surveying, including Field Work, (Wentworth).

Junior Class.

Greek — Orations of Demosthenes, (Tyler); Gorgias of Plato, (Woolsey); New Testament; Optional, Prometheus Bound, (Wecklein).

Science — Chemistry, with Laboratory Practice, (Shepard, Williams' Laboratory Notes).

Logic — (Jevons): *Civil Liberty*, (Lieber) or *German; Civil Government*, (Fiske).

Natural Theology — (Chadbourne); *Evidences of Christianity*, (Hopkins).

Senior Class.

Science — Physics, with Laboratory Practice, (Ganot); Astronomy, (Young); Mineralogy, Geology, (LeConte).

Mental Philosophy — (Haven).

Moral Philosophy — (Fairchild).

Political Economy — (Laughlin).

History of Civilization — (Guizot).

Rhetoric — (Kellogg).

Rhetorical exercises, comprising Essay writing, Forensic Disputations, Orations and Declamations, throughout the course. Systematic Bible study throughout the course.

COLLEGE PREPARATORY COURSE.

For admission to this course, a thorough examination must be passed in Spelling, Geography, United States History, Grammar, and Arithmetic as far as Mensuration. Certificates showing attainment may be given to those who complete this course with credit.

Junior Class.

English — Composition, (Hart).
Mathematics — Academic Algebra, (Wells).
Latin — Beginner's Latin Book, (Collar and Daniels).
Physical Geography — (Monteith).
Good Morals and Gentle Manners — (Gow).
Drawing.
Wood-working. (See Mechanical Courses).

Middle Class.

English — Seven British Classics, or equivalent.
Mathematics — Book-keeping.
Science — Physiology and Temperance, (Martin); Botany, (Gray); Herbarium with fifty specimens required.
Latin — Grammar, (Allen & Greenough); Cæsar, Gallic War, (Allen & Greenough); Cicero, Orations, (Allen & Greenough).
School Economy and Primary Methods — (Princé).
Wood-working and Mechanical Drawing.

Senior Class.

English — Literature, (Kellogg).
Mathematics — Higher Arithmetic; Plane Geometry, (Wentworth),
Science — Physics, (Gage).
Latin — Cicero, Orations, (Allen & Greenough); Virgil, Æneid, (Allen & Greenough); Latin Prose Composition, (Jones).
Metal-working, Mechanical Drawing.
Vocal Music, Practice in Choral Singing, Composition and Declamation throughout the course.
Systematic Bible Study throughout the course.

NORMAL COURSE.

The requirements for admission to this course are the same as for the College Preparatory Course.
A certificate of graduation will be given to those who complete this course with credit.

Junior Class.

English — Composition, (Hart).
Mathematics — Academic Algebra, (Wells).
Latin — Beginner's Latin Book, (Collar and Daniels).
Physical Geography — (Monteith).
Good Morals and Gentle Manners — (Gow).
Drawing.

Junior Middle Class.

English — Seven British Classics, or equivalent.

Mathematics — Arithmetic; Book-keeping.

Science — Physiology and Temperance, (Martin); Botany, (Gray): Herbarium, with fifty specimens required.

History — General, (Swinton).

School Economy and Primary Methods — (Prince). *Practice Teaching.*

Drawing, Music, Composition.

Wood-working for Boys. Sewing for Girls.

Senior Middle Class.

English — Literature. (Kellogg).

Mathematics — Plane Geometry, (Wentworth); Higher Arithmetic.

Science — Physics, (Gage).

History — New Testament, (Smith); U. S. History.

Drawing, Music, Composition, Practice Teaching.

Metal-working for Boys. For Girls, Sewing and Nurse-training (Text-book, Weeks).

Senior Class.

Ethics — (Steele

Phychology — (Steele).

Science — Astronomy, (Young); Mineralogy; Geology, (LeConte)

Civil Government — (Fiske)

Pedagogics, Practice Teaching.

Reviews of Common Branches

Rhetoric — (Kellogg); *Reading* and *Elocution.*

General Housekeeping for Girls, with special instruction in *Cooking* and *Dress-making. Nurse-training* (Text-book, Weeks).

Vocal music, practice in Choral singing, composition and recitations required throughout the course.

Systematic Bible study throughout the course.

Practice Teaching in Model School required during the last three years of the course.

MECHANICAL COURSE.

At present this course covers three years — one in working wood, one wood and iron, and one in mechanical drawing. Another year of metal-working will, it is expected, be added soon. It is required of all boys above the fourth grade, in addition to their regular studies in other courses. Seven and a half hours each week are given to this work.

Those having finished this course, who have the ability and the desire to become finished workmen in some one of the trades, will have the opportunity to do so.

First Year.

The use and care of common wood-working tools, as the hammer, saw, plane, try-square, guage, rule, chisel, mallet, bit and brace, bevel, steel square, draw-knife, dividers, screw-driver.

The general principles of wood-working, as sawing, planing, marking, chamfering, boring, mortising, tenoning, halving, grooving, matching, mitering, beveling, dovetailing, gluing, steaming and bending, driving nails and screws—at first following a set of thirty-seven graded models and working from blue prints of same; later, measuring lumber, constructing tables, shelves, benches, physical apparatus, drawing models, etc. Use of wood fillers, paints, and oils.

Second Year.

The use of the wood-turning lathe and jig-saw, following twenty-five models.

Job work and fancy turning.

First steps in pattern-making.

The use and care of the blacksmith's forge and tools, as the anvil, hand and sledge hammers, tongs, punches, hot and cold chisels, heading tools, swaging tools, files.

The building and care of the fire, the proper degrees of heat for iron and steel.

The general principles of forging, as drawing, bending, upsetting, spreading, welding.

The tempering of steel.

Chipping and filing to line, gauge and surface. Polishing, using twenty-four models. Constructing useful articles in iron, as gates, piano lamps, fenders, andirons, etc.

Third Year.

Mechanical drawing, fourteen sheets. Use of instruments, lines straight and curved, geometry, working drawings, sections, lettering, machinery, isometric, line-shading, tracing, blue prints, tinting and architecture. Each student then prepares an assemblage drawing called a thesis drawing, which is framed.

Fourth Year (Optional).

Making twelve patterns and casting same in lead and brass. Thirteen lessons on engine-lathe, and upright drill, riveting, belt lacing, etc. Designing, steam engineering, and shop methods.

SPECIAL MECHANICAL COURSE.

A mechanical course, coördinate with the normal and classical courses, has been established by the Trustees, and only waits the providing of the necessary funds to be put into operation. The object of this course will be, not to give manual training merely as a part of a general education, but to thoroughly prepare young men for industrial vocations.

GRAMMAR SCHOOL COURSE.

The studies of the first three years are taught in the Model School.

First Year.

Monroe Reading Charts, Appleton's First Reader, Number Lessons, Object Lessons, (Place, Direction, Plants), Drawing, Writing with pencils, Singing.

Second Year.

Second Reader, Oral Spelling, Number Lessons, Object Lessons, (Animals, Land and Water), Writing with pencils, Singing.

Third Year.

Third Reader begun, Primary Arithmetic, Geography of city, county and state, Globe Lessons, Dictation Exercises, Copy-book No. 1, Spelling, Singing Drawing.

Fourth Year.

FIFTH GRADE.

Third Year and Supplementary Reading, Intermediate Arithmetic through fractions, Primary Geography, (Appleton's), Picture Language Lessons, (Barnes), Written Spelling, Copy-books Nos. 2 and 3, Vocal Music, Drawing.

Fifth Year.

FOURTH GRADE.

Introductory Fourth Reader, Intermediate Arithmetic completed, Larger Geography begun, (Appleton's U. S. and N. A.), Language Lessons, (Mrs. Knox), Spelling, Copy-books Nos. 3 and 4, Vocal Music.

Sixth Year.

THIRD GRADE.

Fourth Reader, Practical Arithmetic into compound numbers, Geography of South America and Europe, Elementary Grammar, (Mrs. Knox), Familiar Science, Vocal Music, Drawing and Writing.

Seventh Year.

SECOND GRADE.

Fifth Reader, Practical Arithmetic through percentage, Mental Arithmetic, Grammar, Geography completed, Vocal Music, Drawing and Writing.

Eighth Year.

FIRST GRADE.

Reading, Practical Arithmetic completed, Grammar and Composition, U. S. History, Alcohol and Hygiene, (Coleman), Vocal Music, Drawing.

Instruction in sewing is given to all girls.

Carpentering to boys of First, Second and Third Grades.

Weekly Bible Lessons and Composition Work are required throughout the course.

Written examinations are required in the studies of all the courses at the close of the Fall and Winter Terms, and oral examinations annually during the three days preceding Commencement.

THE MODEL SCHOOL.

Sixth, Seventh, and Eighth Grades.

[See Grammar School Course.]

This school is under the management of the Principal of the Normal Department, and a trained model teacher. The school is organized as a *Practice School* in connection with the Norml aDepartment.

GENERAL INFORMATION.

MEMBERSHIP.

For membership in the Institution, a person must have a good moral character, and must sign a pledge to abstain from the use of all intoxicating drinks and tobacco in every form while a member of the school.

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has had a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained.

Pupils from other schools must present certificates of honorable dismission.

Applications for admission should be made at least a month before the beginning of the school year, and should state fully previous education and present plans.

Pupils should enter the first day of the school year, that they may be immediately classified, and thus lose no time in beginning work.

Students lose their membership in class when absent one month.

During vacation, as well as during term time, students are held amenable to the authority of the school.

Those who have not a fixed purpose to improve their time, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such persons is not tolerated.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

* EXPENSES.

Boarding, including furnished rooms, fuel, lights and washing, per month	$10 00
Tuition in College Course, per month	2 00
Tuition in Model School, per month	1 00
Tuition in Normal, College Preparatory and Grammar School Courses, per m..	1 50
Instruction in Instrumental Music, per month	1 00
Use of Instrument one hour per day, per month	1 00

All payments are due in advance on the first day of each calendar month. Fractions of a month are charged at a somewhat higher rate.

In case girls do their own washing in the Institution Laundry, an allowance from the above charges for board will be made.

All boarding pupils are required to work for the Institution at least one hour a day. This requirement helps to make the above low charges possible.

* Subject to change by action of the Board of Trustees.

Remittances in payments of bills should be made by money orders, drafts, in registered letters, or by express.

Make money orders and drafts payable during 1893-'4 to H. Bumstead, and address all moneys to him. Receipts will be promptly returned.

STUDENT AID.

Some students have been aided during the past year by contributions from the friends of popular education. It is expected that this help will be continued.

The income of the King, the Cassedy, the Dodge, the Hastings, the Boyd, the Plainfield and the Garfield Scholarship Funds is now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow. In no case is aid granted for a longer time than the current year without renewed application.

It is expected that those who are aided will, when able, return the amount to aid others.

TEACHING IN VACATION.

Nearly all of those who are sufficiently advanced in scholarship, aid themselves by teaching. The demand for teachers is usually in excess of the supply.

County School Commissioners and others desiring teachers from this Institution, will find it advantageous to arrange their schools, if possible, so as to include its summer vacation, viz: the months of June, July, August and September. Communications from all such officers will receive prompt attention.

Students of this Institution desiring to teach will be furnished certificates of membership and standing. As a means of protection against imposition, applicants for schools, claiming to be from Atlanta University, should be required to exhibit such certificates.

It is expected that a majority of the students will engage in teaching, and instruction in all departments is adapted to that end. Earnest efforts are made to induce young men to prepare for the ministry.

GRAVES LIBRARY.

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the Library now contains about eight thousand volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, which insures its steady growth. It has been completely catalogued according to the Dewey system.

In connection with the Library are two Reading Rooms well supplied with the leading papers and periodicals of the country, and the students have free access to these, as well as to the Library.

APPARATUS.

A good beginning has been made in procuring Philosophical Apparatus, and additions are made from year to year. Enough has now been accumulated to illustrate the principles of the Physical and Natural Sciences. Also instruments for Surveying and Engineering purposes are possessed. More recently considerable additions have been made in the line of Electrical equipment.

Included in the apparatus are an excellent telescope and microscope, which have been secured largely by the gift of friends.

LABORATORY.

In 1889 a large room, 50x25 feet, was fitted up as a Chemical and Physical Laboratory. The courses in Chemistry and Physics have been arranged upon laboratory methods, each student having his place at the chemical or physical tables, where he experiments individually, and observes and infers the teaching under the guidance of the instructor. In 1891 the Laboratory was considerably enlarged, and a well-equipped scientific recitation room was added to it.

MUSIC.

Facilities are offered for instruction in both Vocal and Instrumental Music. The elements of Vocal Music are taught without extra charge.

Special instruction in chorus singing is given to more advanced pupils. Individual vocal instruction is given in special cases.

For practice in Instrumental Music on organ or piano, see Expenses.

INDUSTRIAL TRAINING.

The boys of the College Preparatory and Normal courses, and the three upper grades of the Grammar School course, are taught the use of tools. (See Mechanical Course, page 27, and Knowles Industrial Building, page 35.)

Boys are also taught some of the principles of farming and gardening. Attention is given to the raising and care of stock, and to the raising of fodder crops.

The girls are taught various branches of household science, such as plain sewing, dress-making, cooking, nursing and laundry work, under experienced teachers.

There is a large and well-appointed Printing Office in the principal University building, in which instruction is given to optional classes both of boys and girls without extra charge. Type-setting, newspaper, book and job work are taught by an experienced superintendent. An eight-page monthly paper, *The Bulletin of Atlanta University*, is published. Job printing is done for the Institution and others by student labor. The present catalogue is issued from our own office, and is mainly the work of students.

Opportunity has been made for 10 students to enter these optional classes. More have desired to enter than the present accommodations could permit.

PRIZES.

The Quiz Club Prizes for an annual contest in English Composition and Oratory were established by an association of gentlemen in Boston, Mass., in 1890. The following conditions of the contest are prescribed by the givers:

1. All members of the College and College Preparatory and Normal departments of Atlanta University shall be allowed to compete.

2. No essay shall exceed 2,500 words in length and none shall be less than 2,000 words.

3. All essays shall be handed to the President of Atlanta University on or before the 15th of March. Those deemed of sufficient merit shall then be forwarded to the Quiz Club Committee. The committee, with the addition of one of the professors in the English Department in Harvard University, shall examine and mark the essays. They shall be marked on the scale of 100.

4. The essays shall then be returned to Atlanta University; with them a list of the marks accorded to each essay. These marks are not to be made known until after the oratorical contest.

5. A public oratorical contest shall then be held, the competitors to be the writers of the eight best essays. The essays shall be shortened so that none shall exceed fifteen minutes in delivery. Marks shall be awarded the orations, on the merit of delivery, on the scale of 100.

6. The two marks of each competitor shall then be averaged and the prizes awarded.

The subjects assigned by the committee for essays for the year 1892–'93 are:
(1) Individual Self-Respect as an Element of Greatness in a Nation or Race.
(2) The Protection of Individual Rights Essential to the Perpetuity of the State.

For the school year of 1891–'92 five prizes were offered of the value respectively of $35, $25, $15, $10, and $5. Awards were made as follows: First prize, James W. Johnson; second prize, Nathaniel W. Collier: third prize, Geo. A. Towns: fourth prize, James T. Hodges; fifth prize, James A. Bray.

For the school year of 1892–'93 five prizes are offered of the same value.

The public oratorical contest is held during the Commencement week.

GOVERNMENT.

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, he may be removed without specific charges.

Suspension and expulsion from the Institution are resorted to in cases whose seriousness calls for such punishments.

When students are exposing themselves and others to permanent harm, it is expected that high-minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authorities.

MISCELLANEOUS SUGGESTIONS.

Each pupil should bring a Bible. It is needed for private reading, for the Sunday-school, and for the weekly Bible lesson.

It is well to bring the text-books formerly used.

Students are required to be furnished with all prescribed text-books at the time when the use of them begins.

All should be provided with *warm* clothing.

Young women must have *rubbers* and *waterproofs*.

The use of expensive and showy dress is not permitted. Silks, velvets, and jewelry worn by school girls is indicative neither of good taste nor good sense. Prints, ginghams and plain worsteds neatly made, and colored underskirts, are the most approved wear. White dresses are not permissible.

Parents will do well not to send clothing unless the request for it is indorsed by the Matron. No extra dress is required for the close of school.

Experience has taught that much evil comes from pupils receiving food or large quantities of fruit or candy from home or friends. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed to the care of Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, except by special permission.

Boarders are expected to furnish their own towels and napkins.

Keeping or using fire-arms on the premises is forbidden.

During term time, students shall not, without permission, actively participate in any political or mass meeting.

Students, should, in all cases, be regularly excused when they leave school, as leaving otherwise is regarded as an offense.

Students from a distance should arrange their journey so as not to arrive on the Sabbath, as they will not be admitted on that day. When going away, they should apply for dismission in season to arrive at home before the Sabbath.

Students are not allowed to make visits on the Sabbath, and their friends are earnestly requested not to call upon them on that day.

The Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Among the appropriate means for securing such results, the Sabbath, with its religious services, is most important. The excitement of visiting prevents, in a great measure, the benefit that may be derived from a proper observance of the day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral, and religious culture receive careful attention.

The University grounds are at the head of West Mitchell street, about one mile from the centre of the city. Electric cars, marked "West Hunter St. and Chattahoochee River Road," leave the corner of Marietta and Broad streets every half hour, and run past the gate.

BUILDINGS.

The buildings are situated on high ground in the western part of the city, and are surrounded by about sixty-five acres of land belonging to the Institution.

DORMITORIES.

During the summer of 1869, a plain, four-story brick building was erected, containing sleeping rooms for about forty pupils, and also a parlor, dining room, kitchen, etc. It was designed for a girls' dormitory, but, during the first year, furnished all accommodations, both school and boarding, for boys and girls. In August of 1870, another building of the same style, but larger, containing sleeping rooms for about sixty boys, besides temporary school rooms, was completed. In the summer of 1871, this building was enlarged by a wing, providing rooms for about forty additional pupils, and other school rooms. In the summer of 1880, a portion of the gift of Mrs. Stone, of Malden, Mass., was used in erecting a wing to the first named building. This wing provides for fifty additional pupils, and has a large study hall which is now used by the Model School.

In the summer of 1884, large rooms for the accommodation of the cooking classes, and for other purposes, were added to this building.

STONE HALL.

This building, erected in 1882, stands between the two dormitories, and is the gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel and library, the school room, recitation and lecture rooms for the more advanced students, the printing office, the philosophical and chemical laboratory, offices, etc. This building and the two dormitories are heated by steam from one plant.

KNOWLES' INDUSTRIAL BUILDING.

This building, erected in 1884, is for the use of the Mechanical Department. It is a memorial of the late Mr. L. J. Knowles, Worcester, Mass., his widow having appropriated from his estate $6,000 for its erection. Other contributors toward the building and its furnishing are Mr. F. C. Sessions, of Columbus, O., $700.00; the Slater Fund, $900.00; a friend in New York, and friends in Massachusetts.

The building is of brick, one hundred by forty-four feet, and three stories high. One room, forty by fifty feet, is furnished with thirty cabinet benches, each fitted out with a set of wood-working tools.

Another room contains a fifteen-horse power engine, cut-off and rip saws, pony planer, grind stone, benches and tools for general use.

In another room are twelve wood-turning lathes and two power jig saws.

A wing, thirty-two by forty feet, contains twelve forges and sets of tools.

Still another room is used for mechanical drawing, accommodating a class of twenty-five, the furniture of which was made by the students, as most of that in the building has been.

A basement room, forty by fifty feet, designed for a machine shop, contains one 14-inch Lathe & Morse engine lathe, a Lodge & Davis upright drill, a double emery grinder, set of machinists' tools, and twelve cabinet benches equipped with vise and tools for chipping and filing.

There is also a moulding room for casting lead and brass.

In the building is an outfit for repairing shoes. In it also are made all of the brooms used in the University.

THE BARN

The barn, erected in 1882, forty by sixty feet, with cellars of the same size, furnishes facilities for the development of the farm work of the Institution.

PROJECTED BUILDINGS.

About $5,000 has been contributed by many circles of King's Daughters and other friends throughout the country for the erection of a "Model Home" in which Senior girls may have their rooms, and in which they and other industrial classes of girls may be taught practically the complete arts of housekeeping, such as cooking, sewing, nursing, and domestic sanitary science. Plans have been drawn and, when the remaining amount needed for the building is secured, its construction will be begun.

Another urgent need is for a building for the Grammar School, which may give greater advantages as a practice school for the Normal Department.

FUNDS.

The school being almost entirely without endowments, is dependent mainly upon annual donations from the benevolent public for all support not derived from tuition charges. The amount required from benevolent sources to support the school on its present scale is at least $25,000 yearly. The American Missionary Association aided in the foundation of the school and until recently has assisted it with a small annual appropriation, which of late years has been $3,000. This has now ceased in accordance with the recently formulated policy of the Association to throw upon institutions aided by it the burden of self-support as soon as practicable.

For fifteen years, ending in 1887, there was received from the State of Georgia, in aid of this school, an annual appropriation of $8,000. This grant was made under the provisions of "an Act equitably to adjust the claims of the colored people to a share of the Agricultural Land Scrip." One of the provisions was, that the school should educate, free of charge for tuition, one pupil for every member of the House of Representatives, to be nominated by the member. This grant has now been applied to the establishment and support of a State industrial college for colored youth at Savannah.

The late Mr. Tuthill King, of Chicago, founded the King Scholarship Fund of five thousand dollars.

Mr. J. H. Cassedy, of New York, has founded the Cassedy Scholarship Fund of ten thousand dollars.

The late Hon. Wm. E. Dodge, of New York, founded the Dodge Scholarship Fund of five thousand dollars.

A friend has founded the Hastings Scholarship Fund of one thousand dollars.

The late Mrs. Sarah C. Boyd, of Bradford, Mass., founded the Malcolm Boyd Scholarship Fund of five hundred dollars.

The Plainfield Scholarship Fund consists of three hundred dollars; and the Garfield Scholarship Fund, completed this year, consists of one thousand dollars.

CORPORATE NAME.

The corporate name of this Institution is The Trustees of the Atlanta University.

GARFIELD SCHOLARSHIP.

The Garfield Scholarship of one thousand dollars is now completed, and its income will be available for the first time the next school year. The amount has come chiefly from the "Weekly Offerings" at the University, from former pupils and from schools under the instruction of present and former pupils.

WANTS.

Our most pressing needs at present are the following:

Donations for increased current expenses incident to the enlargement and improvement of our work.

Donations for aid of needy and worthy students.

Donations for additional buildings, and the needful repair of present buildings.

Donations for an iron planer.

Gifts of bedding, table ware, and furniture.

Endowment of professors' chairs.

An endowment of at least five hundred thousand dollars for current expenses.

Special aid toward the establishment of a wholly Mechanical Course.

Hardly anything is needed in the South so much as intelligence in industry; and the University appeals for special funds to promote the cause of educated and skilled labor in this section.

THE WORK OF OUR PUPILS.

Nearly all the graduates, and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, a large number of students engage in teaching, and it is estimated that over ten thousand children in Georgia are taught annually by those who have been connected with the Institution.

KNOWLES INDUSTRIAL BUILDING.
